CALLING ALL TEEN TITANS!

An unexplained videogame has been sent to Titan Tower and it stars...the Teen Titans?! When they turn on the game, strange things begin to happen. Is the new game "playing" the Titans or has a mysterious villain breached their defenses and taken control of our heroes? Play as Robin, Starfire, Beast Boy, Cyborg and Raven in a thrilling adventure that threatens to wipe out the Titans for good!

MAIN MENU

Choose from the following at the Main Menu:

Story Mode
Start or continue your adventure here—either alone or with up to three friends—by choosing New Game or Load Game. If you choose New Game, you will be asked whether you want to Create a New Save Game file. Choose Yes or No to proceed. Then choose your Difficulty Level—Easy, Medium or Hard. Choosing Load Game will bring you to the memory card manager so you can pick your saved game file.

Master of Games
Battle it out against the computer or with up to three other players in Master of Games Mode! Choose who you fight as and who you fight against. On the Character Select screen, use the directional buttons to cycle through the character options and press the @ button to make a choice. (Whoever selects a character first will play as that character, but no two players can play as the same character.) Make your arena choice next by pressing the @ button. Remember, you can unlock additional characters and arenas by playing through the Story Mode!

Options
Choose from the following at the Options Menu:

Settings: Adjust Music Volume, SFX Volume, Voice Volume and controller Vibration ON/OFF.
Controls: Display complete controller diagram.
Extras: View bonus movies, unlocked artwork and other goodies!
Credits: Check out the super hero team that brought you Teen Titans!
**PAUSE MENU**

Press the SELECT button during play to bring up the Pause Menu where you can choose from:

- **Back to Game:** Return to the game in progress.
- **Auto Save:** Turn automatic save feature ON/OFF.
- **Load Game:** Load a previously saved game from the Memory Card (8MB for PlayStation®2).
- **Restart:** Start playing from the beginning of the level.
- **Options:** Adjust Music Volume, SFX Volume, Voice Volume and the controller Vibration ON/OFF.
- **Controls:** Display complete controller diagram.
- **Quit:** Exit the game and return to the Main Menu.

**ON-SCREEN DISPLAY**

The On-Screen Display shows important information, so keep an eye on it as you play the game:

- **Character:** Shows the current Teen Titan you are playing. The character icon will change each time you change Titans. The icon will also change into a super-deformed face when your character is low on energy, charges up attacks or takes damage. **Note:** Computer-controlled Titans do not appear on the display.
- **Energy Meter:** Shows available energy. When your energy meter is empty, your Titan is knocked out for a few seconds.
- **Charged Attack Meter:** The available charge for any charged attacks.
- **Boss Energy Meter:** Tells you how close you are to beating the boss.
- **Continues:** Shows how many character continues remain. Every time your Titan is knocked out, you lose a continue. When the meter shows zero, the next knockout means mission failure.
- **Player Indicator:** Designates current players (P1 = Player 1, P2 = Player 2, P3 = Player 3 and P4 = Player 4).
SAVING THE GAME

Teen Titans autosaves after every completed level. To make sure you can start playing again where you left off, make sure you Create A Saved Game file at the Main Menu. Teen Titans requires 50 KB on your Memory Card (8MB) for PlayStation®2.

SWITCHING TITANS

You can swap Titans at any time by pressing left or right on the directional buttons. The team cycles in this order: Robin, Raven, Cyborg, Starfire and Beast Boy. The on-screen character icon will change to show each Titan as you cycle through. Whether you are playing alone or with friends, every Titan is playable so long as that character is not knocked out or being played by another player.

Note: If the next Titan in order is knocked out, you just skip to the Titan that follows.

Each Titan has a unique set of moves, abilities and strengths, so some Titans are more useful than others in certain situations. The Titans can also work together to perform team attacks, giving you five times the super hero power to defeat enemies! (See Team Attacks on page 18 for more information.)

JUMPING

Your Titan will jump when you press the X button (unless he/she is knocked out). You can also attack and jump at the same time to launch even more combos! (See Combat on page 12 for more information.)

Note: When Beast Boy jumps, he transforms!

PICKING UP & THROWING OBJECTS

The LT button has two main functions: press it once to pick up a nearby object and press it again to throw the object. Use the left analog stick to hurl an enemy or object in a particular direction. The Titans can also walk with an object before throwing it. Some thrown objects will explode or spill on impact; when you discover these, be sure to use them to your advantage during combat!

Note: Hitting an enemy three times in quick succession will stun him. When an enemy is stunned, that’s the perfect time to pick him up and hurl him into something to finish him off!
COMBAT

There are three main attack buttons in Teen Titans:

- **D** = a fast but weaker attack
- **A** = a strong but slower attack
- **B** = a special attack that reflects each Titan's personality and powers

Tapping an attack button launches a quick, explosive attack. Holding down an attack button lets you unleash a spectacular charged attack. With the proper timing, these attacks can also be linked to create basic and advanced combos that build up your Charged Attack Meter and increase your point total. You can combine attacks with jumps to build more intricate combo strings too.

**Titan Specific Attacks**

Each Titan has a series of six attacks that are available at the start of the game, and a spectacular seventh attack you can unlock by finding the hidden full-screen attack power-up! In addition to the attacks listed on the following character pages, each character also has a wide range of additional combos you will earn through game play progress.

Team Attacks

Being a Titan means being part of a super hero team! Team attacks let you eliminate enemies together by taking advantage of your fellow Titans' strengths. You can perform team attacks at close range or from a distance.

Note: Team attacks must be unlocked through gameplay.

Close Range: When one Titan is holding an enemy, and a nearby Titan presses the L1 button, they unleash a close-range team attack together as the second Titan blasts the baddie up and out.

From A Distance: When one Titan is holding an enemy and a distant Titan holds the L1 button down, that's the signal for the first Titan to toss the enemy to the second teammate. The first Titan should look for the exclamation point over the other Titan's head, then throw the enemy and watch the second Titan take on the baddie! These team attacks can also be chained together, like a game of volleyball with the baddie as the ball!

Note: If multiple Titans want to receive an enemy, the enemy will be thrown to the nearest team member.

POWER-UPS & COLLECTIBLES

Pick up Teen Titans power-ups and collectibles to gain an advantage over your enemies or unlock hidden extras! Some will appear after you defeat enemies while others are hidden in certain environments.

At the end of every mission, a statistics screen shows you how you did:

- Charge (Attacks)
- Coins
- Super (Titan Super Moves)
- Combos (Performed)
- Total

For each category you will be graded on how you performed. Grades range from A (Excellent) to C (Average). Titans, Go!
